ASEPT® Pleural and Peritoneal Drainage System

Catheter Procedure Kit

The ASEPT® Drainage System is a complete insertion kit for pleural or peritoneal catheter implantation. The primary component of the ASEPT® Drainage System is the catheter, which has a self-sealing valve attached to the proximal end that prevents leakage and provides a secure, needle free luer lock connection. The ASEPT® valve is connected to the drainage line on the ASEPT® Evacuated Drainage Bottle or Bag to initiate drainage.

The ASEPT® Drainage Line sets are also available as stand-alone items to allow drainage to compatible drainage collection units.

Kit Contents:
One - ASEPT® Drainage Catheter
One - CSR Wrap

TRAY 1:
Two - ChloraPrep® 10.5mL Tint
One - Synthetic Suture, 2-0 Straight Needle
One - Synthetic Suture, 3-0 Curved Needle

TRAY 2:
Two - 5cc Syringes
One - 10cc Syringe
One - 22 GA. x 1.5" Needle
One - 25 GA. x 1.0" Needle
One - 18 GA. Guidewire Introducer Needle
One - .035" x 70cm J-Tip Guidewire
One - Safety Scalpel
One - 16F Tear Away Introducer
One - 12F Dilator
One - 8F Dilator
One - Tunneler
One - Forceps

TRAY 3:
One - Fenestrated Drape
One - 16 GA. x 1.0" Needle
One - 5-in-1 Drainage Line Adapter
One - ASEPT® Drainage Line with Protective Cap
One - Foam Catheter Pad
Six - 4" x 4" Gauze Pads
One - 6" x 8" Tegaderm® Self-Adhesive Dressing
ASEPT® Drainage Kits
600mL and 1,000mL Evacuated Bottles ◆ 2,000mL Bag

Drainage Procedure Kit
The primary components of the ASEPT® Drainage Kit are the evacuated bottle or drainage bag and the Procedure Pack with all the necessary dressing change items. The evacuated bottle is available in either a 600mL or 1,000mL configuration. The drainage bag is available in a 2,000mL configuration. The ASEPT® Drainage Kit provides patients with a convenient and compassionate way to perform drainage at home or in any outpatient setting.

Procedure Pack:
One - Blue Emergency Slide Clamp
Three - Alcohol Pads
One - Foam Catheter Pad
Six - 4”x 4” Gauze Pads
Four - Gloves
One - 6”x 8” Tegaderm® Self-Adhesive Dressing

Accessories: (Sold Separately)
ASEPT® Replacement Valve
ASEPT® Drainage Line Set

## Indications For Use:

The ASEPT® Pleural Drainage System is intended for long-term, intermittent drainage of symptomatic, recurrent, pleural effusions; including malignant pleural effusions and other pleural effusions that do not respond to treatment of the underlying disease.

The ASEPT® Peritoneal Drainage System is indicated for periodic drainage of recurrent and symptomatic malignant ascites. The catheter is intended for long term access of the peritoneal cavity in order to relieve symptoms such as dyspnea.

The ASEPT® 600mL or 1,000mL Drainage Kit is an accessory to be used to connect to the ASEPT® Pleural or Peritoneal Drainage Catheter to drain fluid from the chest or abdomen.

The ASEPT® 2,000mL Drainage Bag is an accessory to the ASEPT® Peritoneal Drainage System and is used for peritoneal drainage with the ASEPT® Peritoneal Drainage Catheter.

The ASEPT® Replacement Valve is used for replacing the valve attached to the ASEPT® Pleural or Peritoneal Drainage Catheter in case of occlusion or malfunction. The ASEPT® Pleural or Peritoneal Drainage Catheter is the main component of the ASEPT® Pleural or Peritoneal Drainage System.

The ASEPT® Drainage Line is an accessory to the ASEPT® Pleural or Peritoneal Drainage System that is used for connecting the ASEPT® Catheter to wall suction or standard fluid collection equipment. The ASEPT® Pleural or Peritoneal Drainage Catheter is the main component of the ASEPT® Pleural or Peritoneal Drainage System.

Refer to the Instructions for Use for complete indications, relevant warnings, precautions, complications, and contraindications.
